MASTER CLASS SPEAKERS

Ms Noreen Keane

Strategic Project Manager & Capacity Planner, Mater Misericordiae University Hospital, Eccles Street, Dublin 7, Ireland.
'Digitalising the Patient Flow Process'

The Mater Misericordiae University Hospital was the first hospital in Ireland to adopt the "Hospital At a Glance" (HAG) real time, system using touchscreen technology. The "Patient Flow" System is an intuitive and functionally rich patient centric solution. Its core functionality compliments and drives the inpatient journey, ensuring timely responses, reduced interruptions and improved quality of care.

Ms Grace Reidy and Ms Mary Fitzgerald

Senior Process Improvement Advisor/Nurse and ADON and Nursing Lead for the Theatre Quality Improvement Programme (TQIP) in UHK.

'Theatre Quality Improvement Programme (TQIP) - University Hospital Kerry's TQIP Journey'

The Theatre Quality Improvement Programme (TQIP) is a Health Service Executive (HSE) Integrated Care Programme for Patient Flow, National Clinical Programme for Anaesthesia (NCPA) and National Clinical Programme in Surgery (NCPS) collaboration. The programme was established to support the development of a sustainable theatre quality improvement programme.

Ms Mary Deery

Age Friendly Coordinator, Louth County Council, Co. Louth, Ireland.
'Healthy Ireland - Delivery at Local Level: An Integrated Approach'

Mary Deery has worked with Louth County Council (local government) for over thirty years. For the past 10 years Mary has worked in Community Development and was instrumental in the development of the Local Economic and Community Plan. Mary is the first Age Friendly Coordinator in Ireland and still holds responsibility for the programme. She now is responsible for the delivery of the Healthy Ireland Programme and the delivery of the Healthy Ireland for Louth Plan.

Professor Rory Farrelly

Chief Director of Nursing and Midwifery, RCSI Hospitals, 111 St Stephen's Green, Dublin 2, Ireland.
'Experiences in a Changing Landscape of an Integrated Health and Social Care System'

Working at Board level in large complex integrated organisations which includes Primary, Secondary, Mental Health, Learning Disabilities and Social Care across England, Scotland and Wales has given me experiences that are transferable into other Health Systems. This presentation will explore the crucial components for integration.

Mr Enda Kelly

National Operational Nurse Manager, Irish Prison Service.
'Leading and Generating True Integrated Care'

Enda's session will explore the real lived experience of leading and generating true integrated care by cultivating and enriching a shared vision and passion for achieving the best patient outcomes. His experiences within the Irish Prison Service, transgress the healthcare boundaries to engender a human rights appreciation and approach across security, governmental and operational disciplines.

Professor Thomas Kearns

Chair

Thomas is currently the Interim Chief Executive Officer, International Council of Nurses, Geneva, Switzerland and is on sabbatical from his post as Executive Director, Faculty of Nursing and Midwifery, Royal College of Surgeons in Ireland.
