ANNUAL MEETING OF THE

IRISH SOCIETY OF UROLOGY (ISU)

Friday 18th and Saturday 19th September 2015

Limerick Strand Hotel
MESSAGE OF WELCOME

Dear members, guests and exhibitors, welcome to our 2015 Irish Society of Urology Annual Meeting.

Following our membership survey on choice of venue, we have located to the Strand Hotel in Limerick combining your requests for accessibility, functionality, and price sensitivity. By request we have reverted to a Friday/Saturday format to suit your busy work schedules.

Our scientific programme is again impressive and I thank our Academic Selection Committee who have endeavoured to include as many high quality abstracts as possible into the sessions.

A major programme change this year is the inclusion of a management session devoted to a comprehensive review of our Irish Society of Urology, its constitution and its roles. To make space in the schedule without reducing our poster and podium sessions there are no invited lectures or council meeting.

Urology remains grossly undeveloped in Ireland compared to the other surgical disciplines. There are acute crises in training, manpower and urology health care delivery, and the future of research. Also important, we must optimise international relationships, develop public relations, and foster our North/South constituency.

Our ISU must become influential within the ‘Centres of Power’ such as RCSI, HSE and Medical Council that make crucial decisions concerning governance, training and health care delivery in Irish Urology. Medical underwriting and Health Insurance companies are likewise relevant. Our society must be proactive but we require an updated constitution and a mandate from members to move forward with the four year strategy as envisaged by myself and our Vice President Peter Ryan.

I am indebted to the many members who volunteered at council to take on various roles. They and our trainee rep will update us on developments during the last year at our management session. I encourage all to take part in the lively debate they will provoke.

Our gala dinner (not black tie) has reverted to Saturday night enabling us to socialise without the pressure of work the following day. A first prize and medal for best scientific presentation and a second prize will be awarded at the dinner. At members request our social programme has been priced to encourage as many consultants, trainees and guests as possible to attend.

I look forward to meeting you all in Limerick.

Yours sincerely

John Thornhill M.Ch. F.R.C.S.I
President, Irish Society of Urology
